

Online Intelligence

City Improvement Districts

A Value Added Proposition

- The Power Of Knowledge
- Crime Intelligence Of The Inner City Area
- Network Capability (Existing Forums)
- Facilitating Of Joint Operations
- Strength Lies In The Integration Of All Components
- Established And Reliable Relationship With Law Enforcement

The Final Product

- Daily Real-time Notifications
- Weekly Automated Reports
- Monthly Coffee/Dashboard & Comprehensive Report
- Ad-hoc Reports:
 - Crime Alerts
 - Hot Spot Analysis
 - External Environmental Influences (TopicWorx)
 - Profiling
 - SLA Compliance (Service Provider Compliance)

CID REPORT FEBRUARY 2015

INTRODUCTION

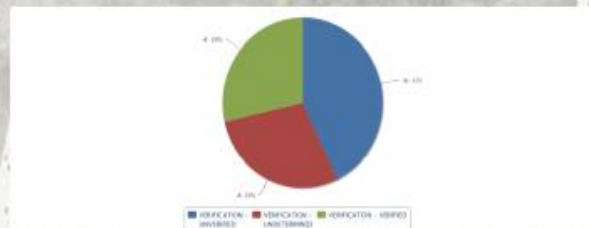

This report is an example of some of the types of graphs and information we, as Online Intelligence, can provide to a CID.

INCIDENT TYPES VS. TIME OF DAY

The figure above illustrates high risk times of the day for certain mentioned criminal incidents. 08:00 and 14:00 are the highest risk times of the day.

INCIDENTS VERIFICATION STATUS

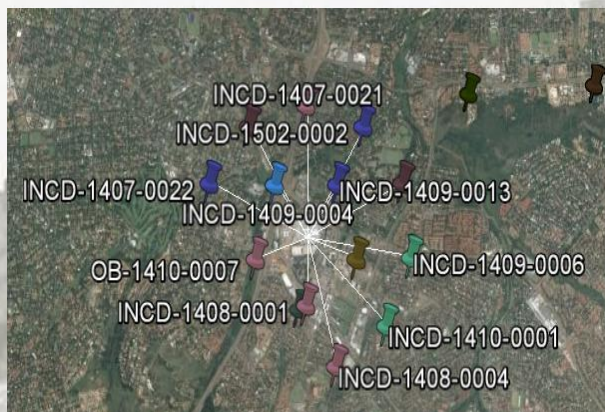

The figure above illustrates the percentage of incidents that have been verified, are undetermined and are unverified.

INCIDENT STATUSES

The figure above illustrates the various statuses of the incidents.

INCIDENTS – GIS

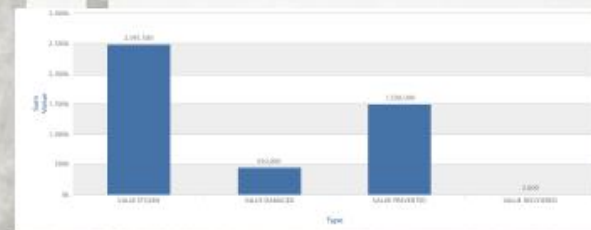

The figure above indicates the geographical location of the occurrences and incidents reported, this will be able to assist with proactive planning of patrol routes, stand-down points, joint operations, etc.

LINK ANALYSIS

The figure above illustrates the link analysis, which is system generated, of all the possible associations between profiles/incidents/occurrences, etc.

FINANCIAL IMPACT

The figure above illustrates the financial impact, this can be due to criminal incidents or SLA management or any other form of occurrence that has a financial impact on the CID.

CONCLUSION

A summary and short analysis will be provided as well

Mercedes-Benz

NEDBANK

South African Reserve Bank

FNB
First National Bank

Shell
